

TIP SHEET

NO. 032

MAKE A SPOKESHAVE

Generic spokeshave blades can be found online for cheap.

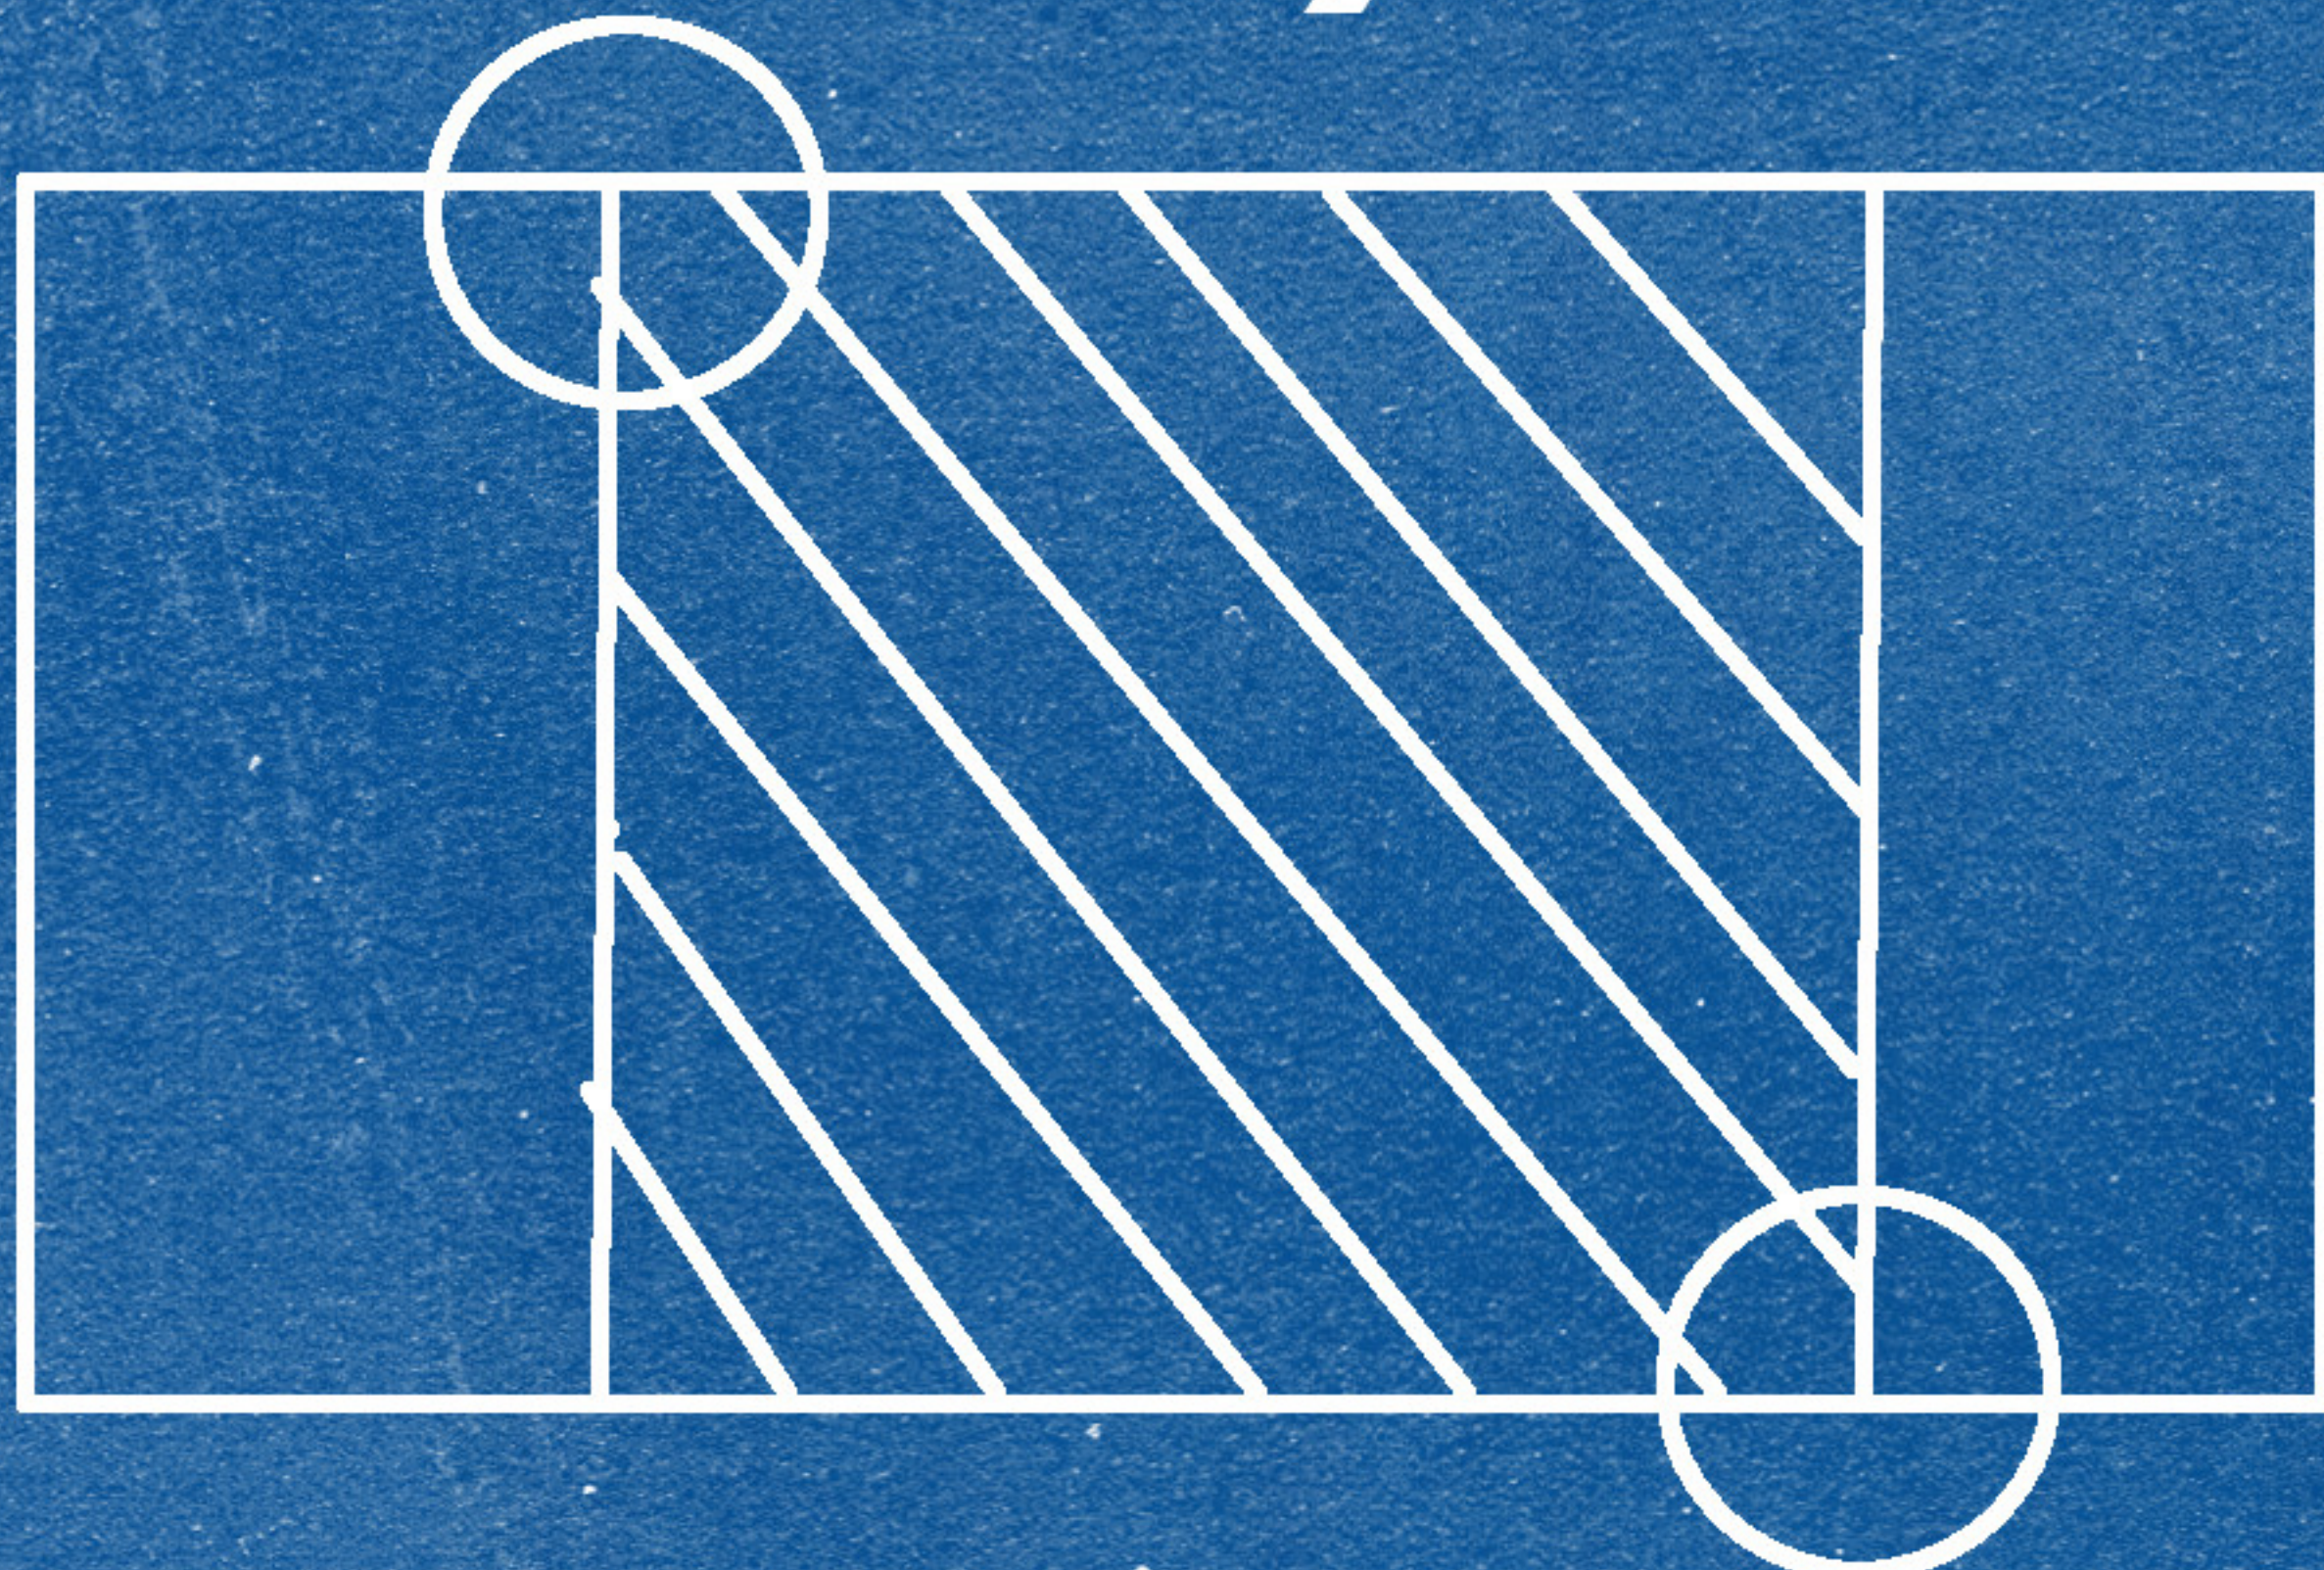

Shape the handles to fit your hand.

Removable throat-plate is attached with screws.

Blade is held in with a nut, machine screw, and washer as the blade cap.

End Layout

Lay out a square on the end of your stock. Connect two corners and you'll have an instant 45 degree bed. Use those corners to carry your layout lines across the top and bottom of your stock. These lines will give you the top and bottom edges of the bed.
